

SHUBHAM DHAPOLA

Full Stack Developer (MERN)

Indore, Madhya Pradesh, India | shubhamxdhapola@gmail.com | +91 9322663609

[GitHub](#) · [Portfolio](#) · [LeetCode](#) · [LinkedIn](#)

SUMMARY

Full Stack Developer (MERN) with hands-on experience across frontend, backend, and database layers — React, Node.js, Express, MongoDB, TypeScript, and Next.js. Skilled in building secure REST APIs (JWT auth), responsive UIs (React, Tailwind CSS), and working with SQL and NoSQL databases. Open to Full Stack, Backend, Frontend, and Software Developer roles.

EDUCATION

SAGE University, Indore — Master of Computer Applications (Computer Science)

2025 – 2027 | CGPA: 8.67

Shri Shankaracharya Professional University, Bhilai — Bachelor of Computer Applications (Computer Science)

2022 – 2025 | CGPA: 8.45

SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C, C++

Frameworks / Libraries: React, Node.js, Express, Redux, Mongoose, Tailwind CSS, Bootstrap

Databases: MongoDB, SQL

Tools / Platforms: Git, GitHub, Postman, Firebase, Vercel, HTML5, CSS3

Core Competencies: Full Stack Development, REST API Design, Data Structures & Algorithms, Object-Oriented Programming, Database Design, Authentication & Authorization, Responsive Web Design, Version Control

PROJECTS

Sai Petrol Pump — [Link](#) Node.js · React · Express · MongoDB · Redux · Tailwind CSS · JWT · Gemini API

- Automated shift, meter, machine, nozzle, tank, and fuel-price management by building an AI-powered petrol pump management system on the MERN stack
- Secured REST API endpoints against unauthorized access using JWT authentication and MongoDB transaction handling to prevent data inconsistency
- Surfaced fuel consumption and sales trends by integrating the Gemini API for AI-powered analytics, enabling data-driven pricing decisions

Arise — Habit Tracking & Productivity Platform — [Link](#) Node.js · React · Redux · Express · MongoDB · NodeCron

- Improved daily habit consistency by building automated reminder and email notification systems on NodeCron-scheduled background services
- Gave users real-time progress feedback by designing streak-tracking, activity-heatmap, and achievement visualizations
- Architected a reliable MERN backend with JWT-secured REST APIs and MongoDB for persistent state management

BitLinks — URL Shortener — [Link](#) Next.js · MongoDB · Tailwind CSS

- Built a full-stack URL shortener with Next.js App Router and a responsive Tailwind CSS interface
- Eliminated broken and duplicate link errors by implementing robust validation and edge-case handling across API routes
- Used MongoDB and Mongoose to efficiently store and manage original and shortened URLs, including creation, redirection, and duplicate checks

CERTIFICATIONS

- Software Engineering Job Simulation — Accenture
- Career Essentials in Software Development — Microsoft
- Frontend Developer (React) — HackerRank

HONORS & AWARDS

- Star Performer of the Month (October 2025), Sunstone at SAGE University Indore — recognized for outstanding academic performance among MCA 1st Semester students
- Commended for leadership and fostering technical excellence as Tech Club Coordinator
- Solved 350+ questions on LeetCode and HackerRank, strengthening core Data Structures & Algorithms proficiency
